Weld Testing Facilities

REAL training and certification to meet the needs of industry!

Founded in 2013, PATTC is a private vocational institute with head office in Saskatoon, and training centres in Saskatoon, Regina and Winnipeg.

Wholly owned by the United Brotherhood of Carpenters, we provide contract training for our customers. Our clients include the Saskatchewan Apprenticeship and Trade Certification Commission, Dumont Technical Institute, CORCAN, the Saskatchewan Indian Institute of Technology, Regional Colleges, Apprenticeship Manitoba and private companies.

With the exception of PARC training programs, for which we directly recruit, our clients recruit trainees for either our stand-alone courses, or custom designed training programs. Our trades courses cover a wide range of content, and vary in length from 1 week to 20 weeks. We also provide **Infection Control Risk Assessment (ICRA)** and safety training to meet industry and regulator requirements.

flexible solutions for your needs

ALL of our pre-employment training can be delivered in a variety of time frames, content requirements and costs. Safety training meets regulatory content and time frame requirements.

CUSTOM TRAINING TO MEET YOUR NEEDS

Many of our clients need training to match specific content, timeline or budgetary requirements. No problem! We can and do design courses to meet the needs of our customers. Contact us for more information.

*Check out the **next page** for safety training!

- WIDE VARIETY OF SAFETY TRAINING

CUSTOM SOLUTIONS

We have a wide selection of trade-specific, safety and ICRA courses available. We can also design specialized training to meet your needs.

OUR PLACE OR YOURS?

We deliver training to a wide variety of locations including our shops, construction sites, as well as rural and urban communities.

PATTC partners with smaller locations to provide onsite training to meet individual community needs.

COMPETITIVE PRICES

Our high quality training meets OH&S, WH&S and industry requirements. Call or email us for a quote for your training needs.

EXPERIENCE AND FLEXIBILITY

PATTC employs instructors with a broad scope of relevant industry experience. Our staff have worked in industrial, commercial and residential construction in a variety of locations and conditions.

We can provide training at our Winnipeg, Regina and Saskatoon locations for on-boarding of workers heading to remote locations.

For smaller communities, PATTC supplies instructors and learning materials and can provide tools, PPE, project materials and logistical services resulting in a “turn-key” solution for your training needs.

We take pride in partnering with communities to complete local projects to meet community needs. For many programs, students receive trade time credit from the Saskatchewan Apprenticeship and Trade Certification Commission.

We prepare students for employment in industrial settings, residential construction and home renovations.

SAFETY TRAINING

Safety at work is a top priority, and certification is a job requirement at most construction sites. PATTC has a wide selection of training available at our three

- First Aid/CPR “C” (2 day Red Cross)
- Forklift (1 day)
- Skid Steer (1 day)
- Fall Protection (1 day or 2 day)
- Confined Space (1 day)
- Rigging(1 day)
- Scaffold User Awareness (1 day)

Skills and Trades Training
Safety Training
ICRA health care training

PATTC provides standard and custom training solutions to meet your needs.

We provide training in a variety of trades, and can quickly tailor new programs to meet our clients' needs. We also provide a wide variety of safety training programs.

Our North American-standard **Infection Control Risk Assessment** program provides essential one day training for health care professionals and 3 day training for construction workers, to ensure proper techniques are used during health care facility renovations and construction.

We deliver Saskatchewan's scaffolder and roofer apprenticeship training program in partnership with the Saskatchewan Apprenticeship and Trade Certification Commission.

We specialize in short courses to bridge the gap, and prepare clients for their first job in a trade.
